Divine F1 Series New Guinea Impatiens

Establishing quickly in the landscape, Divine delivers outstanding performance to growers, gardeners and landscapers.

A one-week flowering window across a great range of colors means easy and simple designer mixes for the landscape market.

The only seed-propagated New Guinea on the market offers you ease of ordering, timing, delivery and storage without disease issues. Divine fits in with existing mechanical transplanting and plug programs to deliver fast turns and high-density production in 306 premium packs and 4-in. (10-cm) pots.

The full plants filled with big and showy blooms make lush hanging baskets and containers. Uniform, well-branched plants offer strong garden performance and showy displays all season.

Mystic Mixture received perfect ratings at the Dow Gardens 2008 trial in Midland, MI.
