Super Elfin® Impatiens

Melon XP

The #1 impatiens choice makes exceptionally showy and easy-care mass plantings.

- Big blooms, consistent early flowering and well-matched performance
- Available in all the high-demand colors plus lots of novelty choices

Mixture

The most impatiens colors and mixes for landscapes.

Super Elfin Impatiens: 23 colors & 12 mixes

Location: Shade (filtered light only)
Height: 8 to 10 in. (20 to 25 cm)
Spacing: 12 to 14 in. (30 to 35 cm)
South: Spring through Fall (March through October) – anytime but during danger from frost
North: Past the frost-free date through late Summer

Made for the Shade: Nothing beats impatiens for coloring up lower-light landscapes and containers...and there isn't another impatiens series on the market that tops Super Elfin for all-around great performance all season.

Biggest blooms and better branching: Pair Super Elfin's large flower size with the superior plant shape and you get a full, healthy plant that makes the showiest displays.

Well-matched timing: Super Elfin flowers early with a tight blooming window across all 23 colors. Count on plants that come into color all together and stay flower-filled all season. No holes, no late bloomers...consistency is the key!

Colossal color: Super Elfin comes in all the core, top-selling colors plus unique novelties like Punch, Star Cherry and Lipstick. With a huge variety offering, you can mix 'n match any Super Elfin varieties to meet your clients' needs!

Super Elfin impatiens are bred by Ball Horticultural Company. Ball is dedicated to providing landscape professionals with the latest information and best-performing products for the landscape. Visit **balllandscape.com** today for more Landscape Color Solutions.

Ordering Your Super Elfin Impatiens
Your preferred grower needs 4 to 5 weeks to produce Super Elfin impatiens.
North: Order November to December
South: Order September to October

EasyScape® Plantable Pots Save Time & Labor, Reduce Planting Waste

- Plant up to 30% faster – go straight from tray to ground.
- Less plastic means less waste for faster clean-up – stack your trays and go.
- No "depotting," no torn roots, less plant damage, no cut fingers.
- Certified EasyScape growers use organic-based fertilizer to get plants off to a healthy, sustainable start.
