

## Seven American Rose Trials for Sustainability Winners from Star® Roses and Plants

**Star® Roses and Plants recently won 7 out of 11 awards from The American Rose Trials for Sustainability program.**

West Grove, PA – Star® Roses and Plants is excited to announce it recently won 7 out of 11 awards from The American Rose Trials for Sustainability (A.R.T.S.) program. A.R.T.S. identifies the most sustainable, hardy, pest-resistant, and beautiful rose cultivars for use in American landscapes and gardens.

Eleven roses earned A.R.T.S. awards for 2019: eight A.R.T.S. Master Rose awards and three A.R.T.S. Local Artist awards. For each region in which a trial rose meets the performance threshold, it earns an A.R.T.S. Local Artist award. If a rose earns a Local Artist award in four or more regions, it is designated as an A.R.T.S. Master Rose, the highest award honoring the rose's wider range of adaptability.

Star® Roses and Plants won four Master Rose awards and three Local Artists awards. The winners are as follows:

**The Bushing Knock Out® Rose**, a 2019 A.R.T.S. Master Rose winner.

**The Double Knock Out® Rose**, a 2019 A.R.T.S. Master Rose winner.

**The Pink Double Knock Out® Rose**, a 2019 A.R.T.S. Master Rose winner.

**The Pink Knock Out® Rose**, a 2019 A.R.T.S. Master Rose winner.

**Bubble Double™**, a 2019 Local Artist winner.

**Peppermint Pop™**, a 2019 Local Artist winner.

**Limoncello™**, a 2019 Local Artist winner.
